

Speak for **Children**

VOTE FOR THEIR FUTURE!

Ask Your Candidate if they will support our campaign's four priorities:

Maintain investment in public education to maximize our potential for growth; resist cutting or overhauling a system that continues to improve.

Proceed with the implementation of the full-day Kindergarten program, delivered by certified teachers, to fully realize its short and longer-term economic benefits.

Continue to implement the recommendations of the Safe Schools Action Team; including embedding anti-bullying strategies into the school curriculum and providing more anti-bullying training for students, teachers and parents.

Follow through with the Social Assistance Review and continue to implement a poverty reduction strategy, particularly with the goal of eliminating child poverty.
